Work Experience

May 2018 - Present

Manager, Software Development and Engineering
Charles Schwab, Chicago, IL
T.D. Ameritrade, acquired by Charles Schwab in 2020, Chicago, IL

- Front-end developer lead for our team of 7 developers designing and maintaining TD Ameritrade Asia financial websites in an Agile environment; currently transitioning the websites to Schwab.
- Utilize AngularJS to create intuitive and responsive user interfaces, enhancing user experience and engagement.
- Collaborate with the design team and product owners to implement slideshows with CSS transition and animation to improve the site's interactivity.
- Implement analytic tags within the codebase using ClickStream to track user experience.
- Upgraded SASS to DartSass for efficient CSS preprocessing.
- Integrated a third-party API using JavaScript for educational stock data videos which provides users with up-to-date stock trading information.
- Used Bootstrap for consistent styling and improved accessibility across multiple projects.

Work Experience (Continued)

May 2017-   **Senior UI Developer**
Apr 2018   Delphian Systems, LLC, Buffalo Grove, IL

- Developed a responsive web application for an IOT company specializing in data analytics using AngularJS, JavaScript, HTML5, CSS3 and Bootstrap, improving user engagement.
- Added SVG icons and updated the portal for clients to check security systems for multiple devices.
- Collaborated with the QA team to identify and rectify bugs, enhancing application performance and reliability.

Sep 2015-   **Front End Developer**
May 2017   Fanatics, Deerfield, IL

- Created responsive and animated sports slideshows using JavaScript, HTML5, SASS and CSS3 animation.
- Implemented website banners through A/B tests using vanilla JavaScript and jQuery which improved user experience.
- Collaborated with and traveled to meet team members in CO, FL and CA offices.

May 2014-   **JavaScript Developer**
Aug 2015   Outsourced Ad Ops (OAO), Chicago, IL

- Worked on an advertising portal for the clients to retrieve advertising analytics data using JavaScript, HTML5 and CSS3.
- Developed functional JavaScript code using Node.js and Grunt commands within a TDD Agile environment.
- Conducted unit testing to validate code integrity and maintain high-quality standards.

Aug 2013-   **UI Engineer**
Mar 2014   Analyte Health, Chicago, IL

- Supported and maintained a dynamic healthcare site for both desktop and mobile devices using JavaScript, HTML5, CSS3, jQuery and Bootstrap.

Oct 2010-   **Web Developer**
Aug 2013   Nokia, Chicago, IL

- Incorporated and updated the check-out process for digital maps into the leading car manufacturers' websites using CSS3 and HTML5.
